➤ THE TRUCK TRAILER AND TYRE EXPO INDUSTRY OVERVIEW

The truck, trailer, and tyre market in India has experienced substantial growth, fuelled by rapid economic expansion increasing demand for logistics and an ecommerce boom requiring robust delivery networks. The growth in infra structure projects, The new voluntary vehicle scrapping policy , the development of more efficient highways and availability of new and powerful truck models has led to a significant boost to the industry .

With a growing emphasis on supply chain efficiency and the expansion of cold chain logistics, there is a rising need for specialized trucks, trailers, and tyres. Furthermore, the development of integrated logistics parks is enhancing transportation efficiency, further driving demand across these sectors.

The market is poised for rapid expansion due to increased focus on renewable energy, manufacturing growth, and ongoing infrastructure projects. These developments necessitate a robust transportation infrastructure to deliver raw materials and support operations efficiently. With the implementation of new manufacturing facilities under the PLI scheme, expected to boost the manufacturing sector's GDP contribution to ₹ 83.46 lakh crore by 2025-2026, and significant investments by the Uttar Pradesh government in logistics and industrial parks totaling over ₹ 31.7 thousand crore, the demand for trucks, trailers, and tyres is expected to surge – (data provided by 6 W Research).
